HAD SCRATCHED FOR 28 YEARS

Till It Got to be Second Nature—Suffering Endless and Without Relief—Cuticura Made Skin as Clear as a Baby's.

"If I had known of the Cuticura Remedies fifty years ago it would have saved me two hundred dollars and an immense amount of suffering. My disease (psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly over my body and got under my nails. The scales would drop off me all the time and my suffering was endless and without relief. A thousand dollars would not tempt me to have this disease over again. I am a poor man but feel rich to be free of what some of the doctors called leprosy, some ringworm, psoriasis, etc. I took and sarsaparilla over a year and a half but got no cure. I cannot praise the Cuticura Remedies too much. They made my skin as clear and free from scales as a baby's. All I used of them was two cakes of Cuticura Soap, three boxes of Cuticura Ointment and three bottles of Cuticura Resolvent. If you had been there and said you would have cured me for two hundred dollars, you would have had the money. I was covered with the scales but by using Cuticura I was soon as clear as any person ever was. This was over twenty-two years ago and for a long time, through force of habit, I used to rub my hands over my arms and legs to scratch, but to no purpose. I was well. I had scratched twenty-eight years and it got to be a kind of second nature to me. Dennis Downing, Waterbury, Vt., November 27, 1909."

Cuticura is the most economical treatment for affections of the skin and scalp. A cake of Cuticura Soap and a box of Cuticura Ointment are often sufficient. Sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston. 25¢ Mail Order. 50¢ per box. Cuticura book, an Authority on the Skin.

PLAINVIEW FARMER RAISES FINE HOGS

Broom Corn Profitable; the Santa Fe Makes Big Improvements Near Town.

Plainview, Texas, Oct. 20.—Bud Williams sold 92 hogs in Plainview this week for \$1500. He says he has had no sickness in his herd since he commenced this industry several years ago, and that he spends but little time in their care, merely turning them from one field to another.

H. E. McCabe shipped 70 tons of brush to the market this week. He has about 1500 bushels of seed also in his barn. Aside from the substantial revenue to be derived from the brush, McCabe is now in the market for sheep to graze on the stubble. If he can get New Mexico sheep at from \$2 to \$3 per head and fatten them on the fair grazing, he will realize no mean sum from them at the prevailing prices of mutton.

The Santa Fe is making extensive improvements at Plainview. The new \$35,000 brick depot will be opened this week. A park will probably be put in on the depot grounds and a Harvey eating house opened. In addition to the beautifying and improvement of its grounds, the Santa Fe is converting its section one mile east of town into a demonstration farm. Work began this week on sinking a well to test for artesian water—the first test ever made in Hale county. A portion of the demonstration farm will be placed under irrigation, the remainder to be farmed by the Campbell scientific method. On this farm, too, stock raising, dairying, poultry raising, fruit culture, etc. will come in for their share of interest. The Santa Fe is putting and planning to put quite a sum of money in Plainview. A branch line of this road already runs into this town from Floydada on the east, and there is talk of its being extended westward.

Mrs. E. L. Jemison is convalescing from a very serious attack of pneumonia.

Beneath Your Fat a Graceful Figure Dwells

Hereditary, natural tendency, inaction, high living, and inability of the system to dispose of fatty foods are responsible for the pads and rolls of fat which gather on chest, hips, waist, chin, cheeks, and neck, covering up and distorting the noble, graceful figure beneath. To remove or prevent these unwelcome deposits—control their quantity and location without paying the price of violent exercise, dieting, self-denial, or impairment of health—in short, to find one's own slim self beneath the fatty sheath—has been made possible by a noted physician, whose Marmola Prescription helped thousands of over-fat men and women to reduce safely and surely from 10 to 15 pounds per day, until the natural health of the system is restored and slimness results. Marmola Prescription Tablets, the new form of this great remedy, each contain an exact dose of the famous Marmola Prescription. Like the original prescription, they are absolutely sure and harmless. Nearly every drugstore keeps these wonderful little tablets, or they may be secured direct by mail from the Marmola Co., 727 Monroe Ave., Detroit, Mich. 75c for a large case is the uniform price.

Health and Beauty Advice

BY MRS. MAE MARTYN.

R. M. S.: Sallow complexion, liver blotches, pimples, eruptions of the skin indicate the need of good blood tonic and liver regulator. Dissolve one ounce of karsene in one-half pint of alcohol and add one-half cup of sugar and enough hot water to make a full quart. Take one table-spoonful ten minutes before each meal. Karsene purifies the blood, cleanses the liver, clears the skin, restores lost appetite and tends to strengthen and build up the entire system.

Annette: The affliction of over-fatness is to be deplored at any age, but it is a positive, mainly, a young and pretty woman to become too fat in these days when fashion decrees the slender figure the only correct one. You can reduce your weight almost at the rate of a pound a day until you reach normal if you will dissolve four ounces of parnotts in 1 1/2 pints of warm water and take a table-spoonful before each meal. You can buy parnotts from any first-class druggist. It is a harmless fat dissolver, and those who take it never use anything else. It makes one look and feel younger, brighter, more buoyant and energetic.

Fannie R.: To be sure a face lotion is far better than a face powder, but it is a little more costly. Never use, as most "liquid face powder" contains injurious ingredients that are likely to ruin your complexion. Try this inexpensive one which is all right: Dissolve four ounces of spir-max in a half pint of hot water and add two teaspoonfuls glycerine. Rub this on your face, neck and arms, and it will give your skin a very pleasing, delicate tone. This lotion does not show the pores of the skin and will remove that shiny, sallow look to your skin. This preparation is a wonderful skin beautifier and I find it excellent for rough, red or sallow skin, freckles and skin pimples.

R. T.: Unless you kill the follicles (roots) any treatment for superfluous hairs on the face or forearms will prove disappointing. Sometimes one application of a laboratory compound known as delatone will do this, sometimes two or three applications are necessary to forever rid one of the embarrassing hair. You must use it. You will have to pay your druggist a dollar for an ounce of delatone, but at that it is cheaper than the electric needle. Just mix a little delatone with enough water to make a paste, cover with it the skin from which you wish to remove the hairs, allow to remain two or three minutes; then wipe off (the hairs come off with the paste), and wash the skin with warm water. If the hairs do return after the first treatment, they will be so light and thin as to be unnoticeable.

Mrs. David O.: The only reason why many hair and scalp specialists advise against frequent shampooing is the

FRANCHISES TO BE GIVEN AT CRUCES

Trustees to Consider Telephone and Electric Light Concessions Soon.

Las Cruces, N. M., Oct. 20.—At the next meeting of the board of town trustees the question of franchises will be brought up. One of the franchise matters to be presented is that of the Tri-State Telephone company, which has been hanging over for several weeks.

The telephone company has plans made for the erection of a two story building in which to place its exchange and offices, but will not start the work until a franchise is granted. It is understood from official sources that the only objection of the company to the franchise as asked by the city is a clause in which, Mesilla Park is to be considered the same as Las Cruces in the making of telephone rates. The company does not want this clause, stating that the people of Mesilla Park are perfectly willing to pay a little more per month for their phones than what is charged in the city limits of Las Cruces.

As soon as this matter is settled, the telephone company will start work on the new building and when it is completed, an entire new system, including cables, switchboards, etc., will be installed.

The other franchise under question is that of the electric light, ice, water and power plant. There has been some talk of the town putting in a municipal water system, and until the matter can be settled there has been no franchise granted to the present company. The electric light company is willing to take a franchise just for light, ice and power and let the town put in its own water system if it so desires. Should the company get a franchise it proposes to immediately enlarge its plant and make a uniform system of rates.

Danderine

GROWS HAIR and we can PROVE IT!

A lady from Minnesota writes: "As a result of using Danderine, my hair is close to five feet in length."

Beautiful Hair at Small Cost

HAIR troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutrition; when baldness occurs the scalp has simply lost all its nourishment—leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions). The natural thing to do in either case, is to feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Knowlton's Danderine has a most wonderful effect upon the hair glands and tissues of the scalp. It is the only remedy for the hair ever discovered that is similar to the natural hair foods or liquids of the scalp.

It penetrates the pores quickly and the hair soon shows the effect of wonderfully exhilarating and life-producing qualities. One 25-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself.

NOW at all druggists in three sizes, 25c, 50c and \$1.00 per bottle.

FREE To show how quickly Danderine acts, we will send a large sample free by return mail to anyone who sends this free coupon to the

New Orleans, La., Oct. 20.—A young man giving his name as A. J. Summerfield, walked into the office of the United States marshal here Wednesday and announced that he had robbed the Merchants' National bank of Lehigh, Okla., of which he was cashier, of \$2500. The bank officials declare his story false.

YOUR BANKING BUSINESS IS RESPECTFULLY INVITED

THOMSON'S "GLOVE-FITTING" CORSETS

End S.: Your headaches and generally despondent feeling, very likely comes from your neck, inflamed eyes. You should attend to the matter immediately or you may have to wear glasses permanently. Get an ounce of crys-toles and dissolve it in a pint of water. Put a few drops in each eye two or three times a day and I am sure it will strengthen your eyes wonderfully and remove your eye troubles generally. I find this a splendid remedy. It does not smart the eyes and is fine for dull, tired, sore eyes that have that overworked feeling.
